(54) IMAGE LAYOUT FORMING DEVICE

(57) Abstract:

PROBLEM TO BE SOLVED: To provide an image layout forming device by which a layout of images can be formed flexibly.

SOLUTION: The image layout forming device 10 receives as an algorithm for laying out a plurality of images in a page from a user-side terminal via a network a data concerning which algorithm is selected out of a plurality of algorithms by a user, and lays out the images in the page according to the selected algorithm. The layout device 10 transmits a data having been laid out toward the user-side terminal via the network.
